Switzerland March 12th 2012

I confirm that the company Simply Moving of Australia is the Exclusive Distributor of products in the territories of Australia and it has the exclusive right to solicit and sell products developed by our company to its entire customer base, public or private.

Any other company posing as such is in violation of the rules of our network and the products distributed by it could be denied the application of different guarantees provided by our company as most likely that the product they sell would be illegally imported into Australia.

With Best Regards
